

USING NAME SEARCHABLE REGISTERS IN ARKIVDIGITAL

OBJECTIVE

You will become familiar with the new index searching or people searching features in ArkivDigital, register archive and city parish name registers.

CHURCH BOOK REGISTERS

POPULATION OF SWEDEN 1880-1920

This is a name searchable register of the household examination/congregation records between 1880 and 1920 for all of Sweden. The index record displays the following information about the person: name, birth date, birth place and current residence (time of the household record) Members of the household are displayed along with a direct link to the original record. A link to the birth book for the person is also included. If the person died, often you will find a link to the death book. **(Only available in All-in-one version).**

Use approximate search to include alternate spellings such as “K’s” and “C’s” for Carlsson or Karlsson. Also, remember children had no surnames while they lived with their parents, so one should try searching in some cases only with given names.

Note – household/congregation records were not created for many parishes in Stockholm city beginning in the 1870’s. Thus, there will be no record of persons living in those Stockholm parishes within this index. To search for persons living in Stockholm between 1878-1926, go to the Stockholm city archives site and search in the roteman’s archive. This site is free. <http://digitalastadsarkivet.stockholm.se/Rotemannen2012/Search.aspx>.

POPULATION REGISTER OF 1950

The 1950 Swedish Census is drawn from the country's tax register published in 1951 using data collected late in the previous year and includes everyone who then lived in Sweden.

The register is searchable by name and includes full name, birth date and birth parish, marital status, and information about their place of residence. Individuals are grouped by households, though the relationships among those living together are not stated. Nonetheless, it is often possible to infer additional information. If a man and woman in the same household have the same marriage date, for example, they most likely are married to each other.

Additional information in the database includes the maiden name of married women and the place of registration in the previous tax register. Usually, there is a link to the first image of the parish birth book that will contain the person's birth record.

CITY PARISH REGISTERS

You will also find name registers for parish books in some parish archives which also include both patronymic and non-patronymic names. Whenever you research a parish, it is always recommended to browse the archive to see what types of volumes are included in the archive. Occasionally, you will see “*register*” or “*personregister*” volumes.

For example, you will find many name registers for many of the parishes within Malmö. These registers provide names indexes for birth, marriage, death, household examination and moving in and out books. You will find the name registers listed in the volume list for the respective parish as volume type, registers. When you click on a register, the information box above will show you what type of a register it is such as register for births for certain years. Below are steps for finding name registers for Malmö Sankt Petri parish.

1. Select county, Malmöhus
2. Select parish, Malmö Sankt Petri
3. Scroll down the volume list and search for registers
4. There you will find name registers for birth, marriage, death, moving and household examination records
5. Highlight a register and a register description will be in the info box above the volume list

Example – Look at PersonReg:5 1841-1846 and mouse over the “i” or look in the info box for a description of the register.

Below is a table of a sample of parishes that have name registers.
