

# Contratante: configuração de telemóvel

**Todo telemóvel precisa de ter a data / hora configurada corretamente, e o GPS ativado.**

1. Abra as configurações | SISTEMA. Toque em [Data e hora]

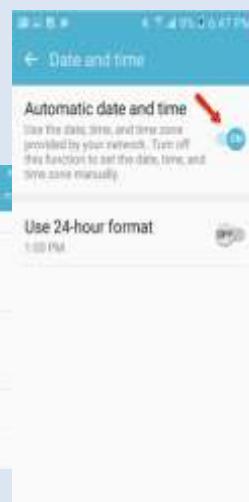

2. Desliga o "Automatic date and time"

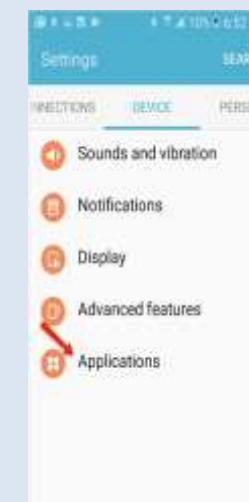

3. Clique em [Select time zone]. Toque no local correto.

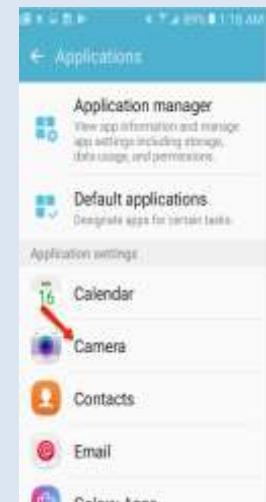

4. Liga o "Automatic date and time"

1. Abra as Configurações | DEVICE. Clique em [Applications]

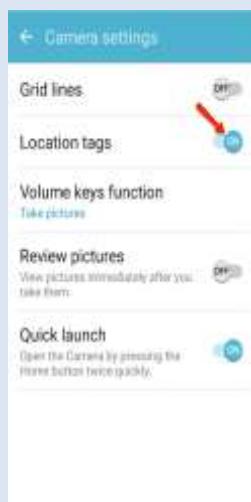

2. Clique em [Camera]

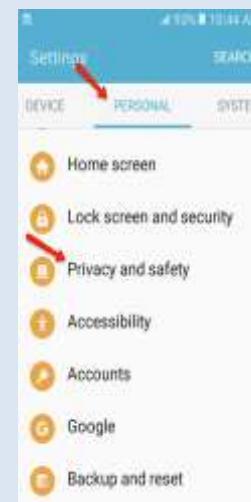

Como  
ativar o  
GPS:

4. Liga o "Location tags"

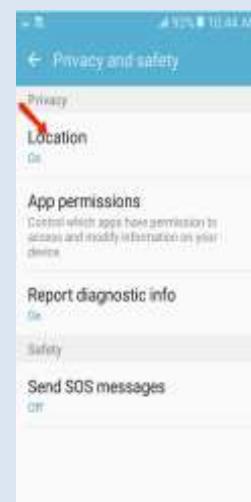

Retornar para configurações

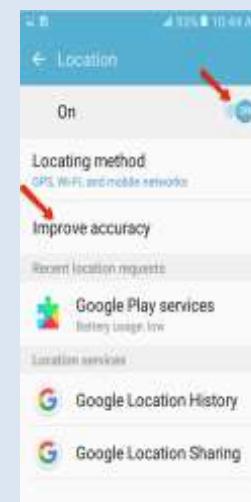

1. Abra as Configurações | DEVICE. Clique em [Privacy and safety]

2. Clique em [Location]

3. Liga o "Location." Clique em [Improve accuracy]

4. Liga o "Wi-Fi scanning" e "Bluetooth scanning"

Acabado
