

# Entrepreneur: installation de telephone portable

Chaque telephone portable doit avoir la date/heure correctement definie, et le GPS activé

1. Ouvrir les paramètres | SYSTEM. Appuyez sur [Date et heure]

2. Éteindre "Automatic date and time"

3. Appuyez sur [Select time zone]. Appuyez sur l'emplacement correct.

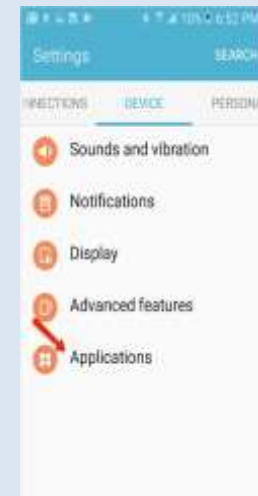

4. Activer "Automatic date and time"

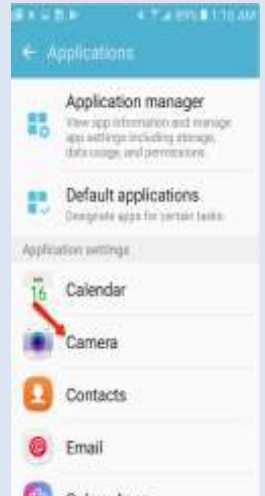

Comment activer le GPS:

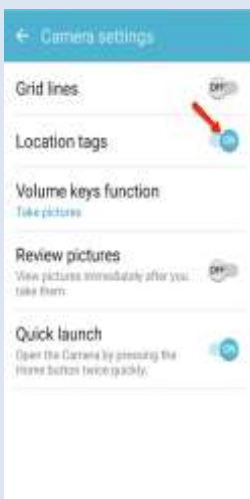

1. Ouvrir les paramètres | DEVICE. Tapez sur [Applications]

2. Appuyez sur [Camera]

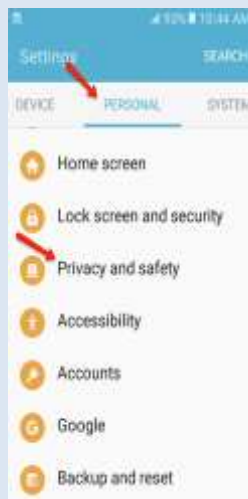

4. Activer "Location tags"

Retour aux paramètres

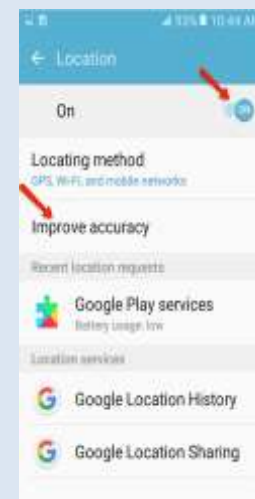

1. Ouvrir les paramètres | PERSONAL. Appuyez sur [Privacy and safety]

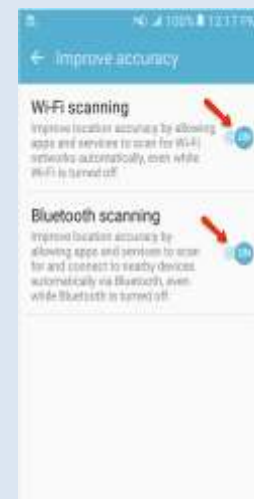

2. Appuyez sur [Location]

3. Activer [Improve accuracy]

4. Activer "Wi-Fi scanning" and "Bluetooth scanning"
